I thought we were, Together  
But I was wrong, like always

When I first touched your hand  
I wrote this song to never end

If you were really  
The rite one for me

Why didn't you show it  
Instead of acting immaturely

You knew I was heartbroken  
But you still laughed behind my back

You have no respect, for anyone but yourself  
(faster)

You broke up with me  
Big mistake  
It was a joke anyway

I met you on the internet, Natalie  
Things were wrong, didn't you see

Everyone told us, we were the perfect couple  
But they were wrong (Pause)

You're a piece of shit  
Your not good in bed  
You suck other dick  
I hope u die  
Please just let me go  
You gotta see, you're a stupid hoe (hoe, hoe,  
hoe, hoe...)

SILENCE

Get a clue  
I never liked you

You're a stupid bitch

A scratch I want to itch

I just want you to know,  
That we will be breaking up, You stupid hoe  
(stupid hoe, you're a stupid hoe, stupid hoe....)

SILENCE

Here we go  
Once again

You think your smart  
I know bout ben

Just run away  
I wont miss you (I promise)  
I wont miss you (I promise)  
I wont miss you (I promise)

SILENCE

Get a clue  
I never liked you

You're a stupid bitch  
A scratch I want to itch

I just want you to know,  
That we will be breaking up, You stupid hoe  
(stupid hoe, you're a stupid hoe, stupid hoe....)

SILENCE

Here we go  
Once again

You think your smart  
I know bout ben

Just run away  
I wont miss you (I promise)  
I wont miss you (I promise)  
I wont miss you  
I wont miss you  
I wont miss you  
I promise
