It would seem some would've caught their breath by  
now,  
And why does heartbreak last so long?  
Crying never got me anywhere,  
I can't wake up from this nightmare,

Why are you still inside me?  
Why can't you just leave me here?  
Why are you still deep inside me?  
Is that my heart I hear beating, beating forever-more,

Waking may be getting harder,  
If we just hold on,  
We can fight our way back,  
And we can catch our breath again,

Why are you still inside me?  
With me here,  
Why are you still deep inside me?  
Fighting, fighting forever-more,

If I could wake-,  
Then I could fly-,  
And I could accept you in my life-,  
Then we could dream-,  
Forever and ever...

Why are you still inside me?  
With me here,  
Why are you still deep inside me?  
Fighting, fighting (you?) forever-more,

Why are you still inside me?  
Why can't you just leave me here?  
Why are you still deep inside me?  
Is that my heart I hear beating, beating forever-more,

Dreaming with you, forever-more...
