It's so crazy just to think
That the world will be ending soon
There's no time to run away
From the troubles you may have
Leaving the one's you love the one's you hate
Behind all of those fears

I'm running away
You'll never see my face again
To hide all of my pain
That i've had to face

Fucked up on these drugs
I can't get enough of these drugs
There are so many of these drugs
I don't know how many drugs i've taken
These drugs they
Batter me
Shatter me
There beating me
Feeding me
Taking it all away

I'm running away
You'll never see my face again
To hide from this pain
that i've had to face
