This world is so fucked up
There's no reason to live
So why the fuck am i here?
That's the question i ask
When i'm lieing on my deathbed

Kill me now
I dont want to live
My dreams of dieing
Have amounted to this

Your shadow has concured me
With all this hatred locked inside
You might as well just end my life
For i am nothing in this world

Nothing left in my life
For me to gain
So hand me that knife
So i can kill away the pain

Kill me now
I dont want to live
My dreams of dieing
Have amounted to this

Nothing left in my life
For me to gain
So hand me that knife
So i can kill away the pain
