How many times
Have I hated
All the things that are
Happening to me
Just to live my life
Day by Day
This Justimatic Suffering
Apon my face

I will lose control
There is no time to waste
Tear it from my soul
With the fear that I have faced

It's redundant How
It's all the same
It's surfacing now
With no one to blame

They fucked you up
Like everything else
Now it's time
The feel the same

Take my heart
And rip it out
And throw it on the floor
And watch me crumble

I will lose control
Leaving things behind
Tear it from my soul
With nothing left to find

Things could get worse
Day by Day
But thats the way
It'll be so
That's How I'll Play
You thought you were
Next at Bat

Well you know what
Fuck That!!!

I have lost my life
There was nothing to gain
So hand me that knife
So I can kill away the pain!

The Pressure is Rising
Day after Day
Get out of my face
And my Way!!

I will lose control
My life is over now
So leave me alone
And kill me somehow!!
