Visit "[Shotgun Logic](#)" on MotoLyrics.com

In the beginning it was once in a while
If you could get it, it proved you had style
But now you're older and things haven't changed
It shows in your face and you don't seem the same

Ups and downs your life is a mess
You tell me you need it to cope with the stress
But I say that's bullshit, clean up your act
Open up your eyes boy, its time to face facts

It's no surprise
With all those lies
You just killed yourself with

Shot - shotgun logic
Shot - pumped in your veins

In one ear and out the other
You just don't listen so why do I bother
You knew better and now you see
It's time to meet your maker and be set free

It's no surprise
With all those lies
You just killed yourself with
Shot - shotgun logic
Shot - pumped in your veins
Shot - shotgun logic
Shot - you lose the game

Solo

Repeat Chorus
