(A+S)

Friend of the stars
What does so ummistakenly control your heart
It's more than a name
And it's not just a game
What do you know?
What do you see that we do not?
Friend of the stars

(Cath.)

Friend of the stars
What does so undeniably absorb your life
You travel alone
Within a world of your own
What do you know
What do you see that I do not?
Friend of the stars

(N)

Friend of the stars
I'm gonna wear that name with pride and dignity
What lies ahead
Is often best left unsaid
Though the future is known
Our destiny still lies in the hands of God
(Choir) Nostradamus
(N)I'm just a friend of the stars

(N)

I've learned there's more to life than simply meets the
Eye.
(Choir) friend of the stars
What's your goal, what's your motivation
(N) that only few can tell the hidden truth from
Blatant lies(choir) tell us why

Does your soul need an explanation?

Knowledge has a price
(N) or from a blessing in disguise
(Choir) Friend of the stars ((3x)

(Critic)
Friend of the stars
What does so irreversibly possess your mind
You're demanding respect
But selling fiction as fact
What do you know
What do you see that we do not
(Choir) Nostradamus (3x)

(N)I've learned there's more to live than simply meets
The eye
(Choir) Friend of the stars
What's your goal, what's your motivation
(N) that only few can tell the hidden truth from
Blatant lies
(Choir) tell us why
Does your soul need an explanation?
Knowledge has a price
(N)or from a blessing in disguise

(Choir) Friend of the stars (6x)

(M)
Friend of the stars
I wouldn't be so self assured if I were you
All will be clear
To those who are here
The past may have flown
But the future is known
Just in case you forgot
MMM dear friend of the stars
