When sunshine days are with you, can I take you down?
These seasons brings it changing it and don't seem
right
I still will pose around you, it makes you feel uptight
I'll watch it raining over you, till you're out sight
I am reaching out to some place when the time suites
perfectly
Where the outside getting longer there some place that
you should be
If you wanna ride, I'll take you for a ride
I've seen the change of everything since you came
my way
Coming on each day
But they'll go on pretending everything is ok
You'll find yourself crying as I walk away
I am breaking out to somewere I can step outside
myself
When the outside getting longer, I can't think of
nowere else
If you wanna ride, I'll take you for a ride
I'm not surprise to see you always hanging around
With all that seem before you, look out of what you
found
When future days around you, keep me in your sights
With eyes withdrawal in front of you, you know it would
be alright
I am reaching out to some place when the time suites
perfectly
Where the outside getting longer there some place
where you should be
If you wanna ride, I'll take you for a ride
