## "Soundsystem"

(feat. Cherine Anderson)

The sound of the weapon called a microphone  
Bring the revolution on  
Broadcasting till the early morn' and  
Pirate radio rockin it on  
Revolution on the dancefloor  
Tell me what you're fightin for  
Because this DJ gonna keep you alive  
Forget about your troubles and your 9 to 5  
With the rhythm of the funk  
The pump the bump  
People have you arrive  
From the place you left, trying to forget  
All the things you sweat  
The jobs, the bills, the phone, the spills  
Somebody hand you a hand full o' pills  
So you hold em up, pop em down  
Your heads like record going gonk a gonk  
The beat keeps bumping pound for pound  
And the whole wide world try to beat you down but  
Sound System heres a warnin  
Sound System turn it on and  
Sound System microphone and  
Babylon system soon come down  
Sound System heres a warnin  
Sound System turn it on  
And Sound System microphone and  
This system gonna rock this town  
Drug dealers teachers preachers  
Are all believers  
Stock Brockers  
Law inforcers  
Late night cokers  
Arms dealers, man stealers  
Big wheelers, three peice stealers  
Also politicians  
Ha ha everybodys on a mission  
Choose your poison, girls boys all make your choice  
and  
Call the doctor, he aint never on a vacation

Gonna send medication knows you jonesion' disco  
addiction  
Mainline? bass line  
Show me what your working with  
Show me what your workin with  
Sound System heres a warnin  
Sound System turn it on and  
Sound System microphone and  
Babylon system soon come down  
All night long from the day your born  
All night till the early morning  
All night from your born  
All night till the day your gone  
All night from the day your born  
All night to the early morning  
All night from the day youre born  
This system gonna rock this town  
Bedroom putting on a uniform  
Dialing the numbers on a xylophone  
Starin at the mirrior watching you transformin  
Making sure they all know you alone  
Rollin up a twenty gonna blow the horn  
Late night ticket for the unicorn  
Everybody looking for the same old porno  
Could a DJ save or soul now?  
Show me what your working with  
Show me what your working with  
Sound System heres a warnin  
Sound System turn it on  
And Sound System microphone and  
Babylon system soon come down
