They gotta war for oil, a war for gold  
A war for money and a war for souls  
A war on terror, a war on drugs  
A war on kindness, a war on hugs

A war on birds and a war on bees  
They gotta a war on hippies tryin' save the trees  
A war with jets and a war with missiles  
A war with high seated government official

Wall Street war on high finance  
A war on people who just love to dance  
A war on music, a war on speech  
A war on teachers and the things they teach

A war for the last five hundred years  
War's just messin' up the atmosphere  
A war on Muslims, a war on Jews  
A war on Christians and Hindus

A whole lotta people sayin' kill them all  
They gotta a war on Mumia Abu Jamal  
The war on pot is a war that's failed  
A war that's fillin' up the nations jails

World war one, two, three and four  
Chemical weapons, biological war  
Bush war one and Bush war two  
They gotta a war for me, they gotta a war for you

We can't stop it when the beat just drops  
And we don't stop  
We can't stop it when the rebel rock  
And we don't stop

We can't stop until we hit those heights  
And we don't stop  
We can't stop because we love this life  
And we don't stop

Dance to the new day, sing to the new day  
Rhyme to the new day, transform hell into

Heaven God lives through, grab hold of today  
Yesterday is over, tomorrow may be too late

Everything is one but the one is off balance  
Music made for the dollar like soul and talent  
Really ain't it all about a feelin' you was havin'  
As a child runnin' wild before the mind programmin'  
set in

Threatenin' your establishment  
Get in this energy, lay back and sit  
The next men wreckin' to the master's lips  
Head spin brethren, get to askin' if

Where, when, Mr. President, "What do you know?"  
It's evident settin' in slow, "How does it go?"  
An unprecedented event is about to unfold  
The devil can't stop, won't stop blockin' the globe

Fall in a cell here, freedom come knockin' at the door  
They try lockin' it though but we about to explode  
We got the firefly, tiger eye apocalypse flow  
So deep in the bottom of your bottomless soul

Send mind darts flyin' out without a pistol  
Redesign lost minds got outta the cold  
Bring order to a world that is outta control  
"Truth", you say, I say, "How do I know?"

We can't stop it when the beat just drops  
And we don't stop  
We can't stop it when the rebel rock  
And we don't stop

We can't stop until we hit those heights  
And we don't stop  
We can't stop because we love this life  
And we don't stop

I wanna rock with punks because I love punk rock  
I wanna rock with heads because I love hip hop  
I wanna rock my beats all around the block  
If I was in Baghdad then I would rock Iraq

I wanna rock with punks because I love punk rock  
I wanna rock with heads because I love hip hop  
I wanna rock my beats all around the block  
There is just one love so the planet we rock

New world days and new world nights  
New world wrongs and new world rights

Puttin' new world funds in the new world banks  
With the new world guns on the new world tanks

New world devils and new world Gods  
New world jails see the new worlds hard  
New world names sing the new world songs  
New world planes are the new world bombs

New world's flyin', the new world's dyin'  
The new world's cryin', the new world's tryin'  
New world sons and new world daughters  
They are already sellin' us the new world water

New world beats for the new world to bang  
New world streets for the new world to hang  
New world president, new world drugs  
New world resident, new world thugs

New world players for new world sports  
New world trials for the new world courts  
New world lawyers and new world laws  
New world prisons and new world bars

New world fight, the new world's fists  
New world lightin' up the new world spliffs  
New world smoke in the new world lungs  
New world's chokin', the new world's done

We can't stop it when the beat just drops  
And we don't stop  
We can't stop it when the rebel rock  
And we don't stop

We can't stop until we hit those heights  
And we don't stop  
We can't stop because we love this life  
And we don't stop

We can't stop it when the beat just drops  
And we don't stop  
We can't stop it when the rebel rock  
And we don't stop

We can't stop until we hit those heights  
And we don't stop  
We can't stop because we love this life  
And we don't stop

We don't stop  
We don't stop  
We don't stop
