"Bad Rain"

There's something dead,
It's in my head
There's something wrong,
A step ahead
A spiral stair that I get on
I will say no, no, no till I get off
It's in my path, it's in my way
I've had a bath in a bad day
Have I been wrong have I been gone
Have I been caught in a
Bad rain today
Have I been tense have I been used
Have I been a victim of self abuse
And if I fall I can't complain

Just wet my lips and kiss the rain
It's in my path, it's in my way
I've had a bath in a bad day
Have I been wrong have I been gone
Have I been caught in a bad rain
Today
Today, today, today
There's something dead,
It's in my head
And if you don't get what I said
Just ask a question and get it all
Cause I will say no, no, no till I get off
