I turned my back on you and now I don't know ya you  
followed me even when I failed to see you

Chorus:

Following in my footsteps and perhaps you saw some  
things I didn't want you to see

When you're around I act right but when you're gone I  
go wrong

Chorus:

When I go wrong theirs no one there's to condemn me  
but when I stop to think there's god

Now when you come around I put my guard down now  
you can see the real me

Chorus:

Don't every thing I want to and even though I say I'm  
save I don't care
