"I Believe In You"

Shout it out
Truth or dare
Show that you're hurt
You know that I care

Take a chance
Let it go
Pretend you are dreaming
Just cope with the flow

Now that I fire
Feels like a dream come true
Give me a sigh
Waiting around just for you
Cause I'll be here for you

I believe in you
And all you things you are
I believe in you
For now and forever
And now and forever more

Close your eyes
Make a wish
I'm sending a thought
I have sealed with a kiss
Fly away
Make demands
You know I'll be waiting
If you need a friend
