"Something To Say"

You don't now what's going on and you don't know how
much time has gone by since we've met last sorry I've
been away

Pre chorus:

I guess there's just one more thing to say.
I feel your pain and it's driving me insane

Chorus:

I don't know anything about you.
Got one thing to say I just feel I got something to
tell you something to tell you

There's someone who will forget any mistakes in your
past that you regret there's just one thing you got to do

Pre chorus:

Come along with me and you will see something you
lack
that you can't subtract

Chorus:

I just got a feeling like some things missing I got
something to tell you something to tell you.
