So if we all come together, we know what to do  
We all come together just to sing we love you  
And if we all come together, we know what to do  
We all come together just for you

Racing all around the seven seas  
Chasing all the girls and making robberies  
Causing panic everywhere they go  
Party-hardy on Titanic

Sailing, sailing, jumping off the railing  
Drinking, drinking, 'till the ship is sinking  
Gambling, stealing, lots of sex-appealing  
Come, let us sing the sailor-song

...(see above)

Sailorman, you really turn me on  
Now the guys are gone, come let us get it on  
Girls like me are pretty hard to find  
So if you go, I'll kick your heine

...(see above)

...(see above)

Now, let's fight  
Ha, that's not a knife, this is a knife

...(see above)

...(see above)

I'm king of the world  
Wow, this was great  
Yeah baby, you can sail my ship

So if we all come together, we know what to do  
We all come together just for you
