Who am I to say
So hard and so long we tried
Can we ever live our dreams?
I've wonder since your gone
But souls are still in touch
close my eyes and I can feel
I can feel without you

Daydream thinking of you
deep in my heart
Daydream finding that you
shine in my life
Are you the voice in my mind?
I still calling cause I feel when
You hold me
and tell me
It's got to be

What's your life now?
Would we ever get along?
Still got time
It's a short life
Together after all
We must now wait
Is it time to come back?
Set Free and left deep inside
To sense was truly real
Dark at your side

Daydream thinking of you
deep in my heart
Daydream finding that you
shine in my life
Are you the voice in my mind?
I still calling cause I feel when
You hold me
and tell me
It's got to be

I'll let my sould fly up
So I can feel and blow my mind away
Out of control now It's even better

The best way to play the game
When you find out beware so you don't
Forget then you gonna have
to search all over
again deep in your heart it
Lies the vibe
That it lights me up when you touched and
Daydream thinking of you
deep in my heart
Daydream finding that you
shine in my life
Are you the voice in my mind?
I still calling cause I feel when
You hold me
and tell me
It's got to be

Daydream thinking of you
deep in my heart
Daydream finding that you
shine in my life
Are you the voice in my mind?
I still calling cause I feel when
You hold me
and tell me
It's got to be

Daydream thinking of you
It's got to be...
Daydream thinking of you
It's got to be...
