Maybe you were right, maybe I was wrong
Maybe I said goodbye a little too strong
But, you've been away way too long
Come home

A little too harsh, a little too loud
Out there on the edge of a little too proud
But baby, you oughta see me now
Come home

Come home, come home
Tell me all is forgiven
Let's get back to livin'
Come home

I know there ain't no way to take it all back
Make it all better after the fact
But I'd sure give my soul for somethin' like that
You just come home

Come home, come home
Tell me all is forgiven
Let's get back to livin'
Come home
Come home, baby

Come home, come home
Tell me all is forgiven
Let's get back to livin'
Come home

I'm gonna wait
But it ain't too long
Come home, come home
Come home, come home
