Little by little by little by little by little
Little by little by little by little by little
You're messing up my life, tearing me apart
Breaking up my world and I'm giving up my heart
Little by little by little by little
I'm losing all my pride, it's really getting bad
Hurting deep inside is a-making me go mad
Little by little by little by little
Little by little, bit by bit
I'm going crazy and you're causing it
Little by little, bit by bit
I should stop caring but my love won't quit
Little by little by little by little by little
Little by little by little by little by little
I don't know where to turn, don't know what to do
I'm walking on thin ice and it seems I'm falling through
Little by little by little by little
Little by little, bit by bit
I'm going crazy and you're causing it
Little by little, bit by bit
I should stop caring but my love won't quit
I'm the queen of fools, know the deck is stacked
On a losing streak but I'm a-gonna get you back
Little by little by little by little
Little by little by little by little by little
Little by little by little by little by little
Little by little by little by little by little
Little by little by little by little by little
