It only takes one to inspire a change,
Or to motivate and show us the way
And when that one stands up and shouts
Will you make the choice, raise your voice
Let nothing drown you out

[Chorus:]

We live blind open up your eyes
To injustice open up your eyes
Free your mind open up your eyes
Of ignorance open up your eyes

It only takes one to say I have a dream
In which we rise above & live equally
Free at last is what we will shout
A world that's color blind, free & kind
Where no one is left out
Why continue

[Chorus]

[Bridge:]

We must work together, we must stand together,
If it's gonna change
Open up your eyes you'll see, I see, well see

It only takes one to inspire a change,
Or to motivate and show us the way

[Chorus:s]

We live blind open up your eyes
To injustice open up your eyes
Free your mind open up your eyes
Of ignorance open up your eyes & see
