Talking to a man living it
How 'bout life when all this ends?
He made it clear he's fearful
But somewhere in his heart he dreams of
Life outside
Life outside
Listened to man on a plane
He'd gotten so good at fame
The night before he flew
He prayed for truth
With tears in his eyes
He cried out for
Life outside
Life outside
Met a crippled man in pain
The hope he had was real
With one hand on a cane
He never complained
Look in his eyes and he'll tell you why
Life outside
Life outside
Won't you give me life outside?
Life outside...
