We've been through some hard times
Sometimes just barely getting by
But heaven knows how we've tried
To keep our hope alive

I can feel the winds of change
Blowing hard and turning a new page
In the story of our lives
And we have survived
On sheer will and pride

Chorus

We want freedom
Freedom to go out and chase our dreams
All we need is our freedom
We don't wanna live under tyranny
We just wanna be free

Though the road may be rough
We can make a stand and show what we're made of
'Cause we've really had enough of promises in vain
The time has come for change

Chorus
