Breaking up with me was a relief for you.
And I made you believe that it was easy for me too...

... But I can't sleep without seeing you strip.
Oh I can't sleep without seeing you...

And oh baby you do look so younger than I.
Maybe it's just because you'll always be seventeen
in my mind...

... Still I can't sleep without seeing you strip.
Oh I can't sleep without seeing you...

Don't mind if I will go and send you a 'Before Sunrise'
DVD.
Don't take it as our story.
Take it as a beautiful movie.

I heard you work till five and live a stable life.
I heard you close your eyes when it's midnight.

... Still I can't sleep without seeing you strip.
Oh I can't sleep.

You used to strip to me at night.
You think Ethan Hawke is better in 'Alive'.
You used to strip to me.
You used to strip to me at night.
Julie Delpy was never your type.
You used to strip to me.
You used to strip to me at night.
We never saw the sequel for the 'Sunrise'.
You used to strip to me.
Without seeing you...
