

Tragedy "Vengeance"

You came for us at birth with your proven techniques
For molding model citizens, forced us into
compartments
Where we didn't fit in
Brought us with a full schedule of television and
revised history
Classes that had us believing this is "just the way it is"
You came for us with grins and smiles,
Systematic persuasion and coercion that we might
have become robots
If it weren't for
Our undying hatred, our unyielding drive,
For reprisal, for retribution, for retaliation, for revenge
The hunt is on, the war is on
We come for you in life, until death.
Revenge, revenge...
