I love you so much He said as He gave me life  
My light shines apon you all of your days  
And I will give you all your dreams

(i know) seek My face and you will be whole  
(i know) put your faith into motion  
(i know) and I know that He will be with me  
And I will not want

I promise to you Lord my life I want to do Your will  
Help me to touch those that seek a broken heart  
And I will give you all my dreams  
Lord I love you please draw nearer  
Take control and make me stronger
