Tall I saw you
Out in the crowd
So many faces,
But it was you that I picked out

I see the rainfall
Outside my window at night
I have discovered my fortune
And it's you...

I lie between hell and heaven
I lie between right or wrong

If I were God
I could have have you,
But I'm just human like yourself

I keep on smiling
Cause I have this dream
Every night when I go to bed
I have this picture of you right before me

You say these three words
Never forget you
But when I open my eyes,
You were gone far away...
