Chorus(Young Scolla):

Everything I wanted to happen  
Everything I ever imagined  
I thought it was slipping away  
Thought it was slipping away  
Thought it was slipping away  
Away from me

Verse 1:

Sittin behind the wheel of the trailblazer, watching  
these lames conveyin the game/  
Never blink if you stray in my lane that's what I tell  
haters/  
See what I became is one in the same/  
Remember the grind I never could shine/  
My buzz is light years way ahead of my time/  
As long as the mics near it's clear I'ma speed/  
The blue lights flashing but I dash when they weave/  
These folks keep crashing while I pass/  
And even though it's red I'm mashing on the gas/  
Living what I said, no acting on my behalf/  
I'm racing towards the life that I asked for in my past/  
The dashboards in my grasp/  
Diamond in the rough still lessons that I wanna learn/  
So I pay close attention while this rubber burn/  
But these roadblocks tried to stop my dreams/  
And a few times I swear it really seemed...

CHORUS

Verse 2:

Sittin behind the wheel of the trailblazer, still no one in  
the passenger seat/  
I just fasten my seat belt they ask if I need help/  
Naw, 10 toes on the gas when I creep/  
But still I'm never satisfied, feel like I need more/  
That's why I move through construction sites and  
detours/  
That's why I'm up at night beast mode Egar/  
You'd swear there's three of me, the way I bomb c4/  
Say it's the g in me that's why I'll never lose my soul/  
A lot of blood, sweat, concentration and cruise control/

I weather whatever storm that's either right or wrong/  
So when it rains all I do is turn my wipers on/  
I'm gone, in a lane with no speed bumps/  
I'm chasing after something you only achieve once/  
If you ever wondered why I have the greatest grind/  
It's because at one place in time/

#### CHORUS

Bridge x2:

If you a underdawg put your hands in the air  
Cause we goin persevere 'til the day that we there (uh  
huh)  
If you a underdawg put your hands in the air  
Cause we goin persevere 'til the day that we there  
(know that)

#### CHORUS
