Song : When I Look To The Sky

When it rains it pours and opens doors
And floods the floors we thought would always keep us
safe and dry
And in the midst of sailing ships we sink our lips into
the ones we love
That have to say goodbye

And as I float along this ocean
I can feel you like a notion that won't seem to let me go

Cause when I look to the sky something tells me you're
here with me
And you make everything alright
And when I feel like I'm lost something tells me you're
here with me
And I can always find my way when you are here

And every word I didn't say that caught up in some
busy day
And every dance on the kitchen floor we didn't dance
before
And every sunset that we'll miss I'll wrap them all up in
a kiss
And pick you up in all of this when I sail away

Whether I am up or down or in or out or just plane
overhead
Instead it just feels like it is impossible to fly
But with you I can spread my wings
to see me over everything that life may send me
When I am hoping it won't pass me by

And when I feel like there is no one that will ever know
me
there you are to show me
