When it rains it pours and opens doors  
That flood the floors we thought would always  
Keep us safe and dry

And in the midst of sailing ships  
We sink our lips into the ones we love  
That have to say goodbye

And as I float along this ocean  
I can feel you like a notion  
That won't seem to let me go

'Cause when I look to the sky  
Something tells me you're here with me  
And you make everything alright

And when I feel like I'm lost  
Something tells me you're here with me  
And I can always find my way when you are here

And every word I didn't say  
Caught up in some busy day  
And every dance on the kitchen floor, we didn't have  
before

And every sunset that we'll miss  
I'll wrap them all up in a kiss  
And pick you up in all of this when I sail away

And while I float upon this ocean  
I can feel you like a notion  
That I hope will never leave

'Cause when I look to the sky

Something tells me you're here with me  
And you make everything alright

And when I feel like I'm lost  
Something tells me you're here with me  
And I can always find my way

Whether I'm up or down or in or out  
Or just plain overhead  
Instead it just feels like it is impossible to fly

But with you I can spread my wings  
To see me over everything  
That life may send me when I am hoping it won't pass  
me by

And when I feel like there is no one  
That will ever know me  
There you are to show me

When I look to the sky  
Something tells me you're here with me  
And you make everything alright

And when I feel like I'm lost  
Something tells me you're here with me  
And I can always find my way when you are here

When I look to the sky  
Something tells me you're here with me  
And I can always find my way when you are here

And when I feel like I'm lost  
Something tells me you're here with me  
And I can always find my way when you are here
