I'd give anything
But I won't give up on you
I'd say anything
But not goodbye
I will roll with your changes
And I'm always on your side
And theres not a word that I've ever heard that will
make me change my mind
Words they'll try to shake you
Don't let them break you
Or stop your world from turning
When words keep you from feeling good
Use them as firewood, and let them burn
Like stones in your pocket, people try to wear you down
Someone always wants to take the love you've found
So lets roll with these changes
And I want you by my side
And theres not a word that I've ever heard that can
make me change my mind
Words they'll try to shake you

Don't let them break you
Or stop your world from turning
When words stop you from feeling good
Use them as firewood, and let them burn
Let them burn, Let them burn
And underneath every word
Somebody's heart been broken
With or without words, we try to forget
Words they'll try to shake us
Don't let them break us
Or stop our world from turning
When words keep you from feeling good
Use them as firewood
And let them burn
Words they'll try to shake you
Don't let them break you or stop your world
Stop your world from turning 'round
When words keep you from feeling good
Use them as firewood
Let them burn, let them burn
Let them burn
