Fossilized regrets
Brush
Uncover
Paralyzed embedded regularity
Deep incision
End to end
Desperate hands tear out every debauchery
One to zero
Zero to one
Abrupt cessation
Lungs bed expulsion of new manifestation
Wings beg
Let, let me fly
Soar high above the problem
I want to be one again, please
Help
Love
Lie
This hole
This shell
Till this whole
Configure the pieces
Tell me when you have it
I need to know
