Uh, yea  
TrakBoss  
Everyday I'm seduced by sin  
And everyday I succumb

(Verse 1)

TrakBoss, I'm too determined to get involved with fuck  
shit  
Cool nerd with good dick  
I insert, she buss quick  
Miss me with that love shit  
Heart colder than February  
Hoes out here think the same so that there is necessary  
My potential is very scary  
I'm on the road to legendary  
That sauce in my cup make any duck look just like Halle  
Berry  
All these rappers ordinary  
Por favor, don't compare me  
I lead by example  
Tell them take notes, secretary  
Steady rolling them trees up cause it's always time for  
some reefer  
If she ain't down with sativa then I think it's time that I  
leave her  
My flow is off the meter  
These other rappers can't keep up  
That nigga beat his own beat up  
Let it bang hard in your speakers, whoa  
All I got is my word  
All I got is my balls  
I work hard, no time off  
My weed smell like pinesol  
Hating niggas, sign off, log off and shut down  
Used to be that nice guy but I don't give no fuck now

(Hook - 2x)

Gotta blunt full full of that funk  
Cup full of that Henn  
Devil in my ear  
Lord forgive me for my sins

Temptation all around  
Got her hands all in my pants  
Baby girl, it's going down  
Climb on top and do your dance

(Verse 2)

Eastside my side of town  
I'm up and down that Stony Isle  
Blowing loud, kush clouds  
Take your wife, buss her down  
Breaking down that vega, rolling up that motivation  
We do this on the daily, not just for special occasion  
My swagger is amazing  
I'm Yung Trak that bidness (business)  
AKA Mr. Come Up With Hot Shit With the Quickness  
Cognac, I'm lifted  
She don't gag, she gifted  
That loud pack, I twist it  
We drink it all, no sipping  
Bowl full of that tropic and it's hitting hard like  
Pacquiao  
Half bar of that zanny with some Remy, you'll be  
blacking out  
OG kush from Cali, man don't make me bring my  
khaki's out  
Man, these niggas love my style  
That's cause I'm the cat's meow  
Coolest nerd you've ever met but never on that Urkel  
shit  
I just hit the booth and spaz  
They say I be murking shit  
God knows I wanna fly straight but Satan causing  
turbulence  
Angel with a wicked body, show me what you working  
with

(Hook - 2x)

Gotta blunt full full of that funk  
Cup full of that Henn  
Devil in my ear  
Lord forgive me for my sins  
Temptation all around  
Got her hands all in my pants  
Baby girl, it's going down  
Climb on top and do your dance
