"All Day, Everyday"

Visit "[All Day, Everyday](#)" on MotoLyrics.com

The inspiration for most of what I'm creating
A quality required for whoever that I'm dating

(Verse 1)

Many disappointments and plenty of broken promises
And hella finger pointing, I no longer got the tolerance
No more reaching out to people, I'm no longer
bothering

Me, myself, and I is all I need, no more partnerships
I reach out to niggas but they be on some hating shit
Now the circle small, less people to share the paper
with

Don't know what to make of it when niggas say they're
with me

Then they see I really got it and I really see the envy,
damn

I'm feeling like this is my moment, yep, that's word to
Nicki

And best believe I'm 'bout to own it, put that on my city
Chi-city, Gotham City, Haterville

If you trying to make it here you'll need skin made of
steel

If you love then say you love me but I'd rather see it
Be that inspiration for me when you see that I need it
Be my motivation, tell me that I can't be defeated
And don't just say it, baby, mean it

(Hook)

Cause as long as you with me nobody can stop us
So tell me you with me, you know that I gotcha

As long as you with me nobody can stop us
So tell me you with me, you know that I gotcha

You know that I gotcha

All day, all day, everyday

All day, all day, everyday, baby

You know that I gotcha

All day, all day, everyday

All day, all day, everyday, baby, yeah

(Verse 2)

No doubt about it, I'm lucky to be this position

I got to give it you cause you started the mission
Gave me confidence, inspired my tunnel vision
But being a boss requires making tough decisions
God be with him, he's just trying to be a man
Came up with his own plan to get to them rubber bands
If you lent a hand when I get it then you winning
If you not a fan then I'm sorry, we can't kick it
Respect the struggle, it's all apart of the struggle
Heavy troubles that I juggle, jo, I know I gained some
muscle
I drunk off self-esteem, jo, I know I'm seeing double
Want to hear supportive screams drowning out a
hater's muffle
Baby boost my confidence, tell me that you still believe
Look me in my eye and tell me anything I can achieve
Be that woman standing by her man to see that he
succeeds
And we gon' win, guaranteed

(Hook)

Cause as long as you with me nobody can stop us
So tell me you with me, you know that I gotcha
As long as you with me nobody can stop us
So tell me you with me, you know that I gotcha
You know that I gotcha
All day, all day, everyday
All day, all day, everyday, baby
You know that I gotcha
All day, all day, everyday
All day, all day, everyday, baby, yeah

As long as you with me nobody can stop us
So tell me you with me, you know that I gotcha
As long as you with me nobody can stop us
So tell me you with me, you know that I gotcha
As long as you with me nobody can stop us
So tell me you with me, you know that I gotcha
As long as you with me nobody can stop us
So tell me you with me, you know that I gotcha
