All things are possible
All things are possible
Cause I believe in You

Give me strength to find my way
As I journey through the day
Cleanse my heart teach me to forgive
Fill my heart each day I live
Give me faith to just believe
You hear my prayer and know my needs
Lead me on till I find
A brighter world and peace of mind

All things are possible
Cause I believe in You

Whenever I am weak You make me strong
I need your love to get along
In my search for worldly gain
Without your help it's all in vain
But one thing I know is true
As I search my whole life through

All things are possible
It's possible, cause I believe in You

With God nothing's Impossible
For I believe in You

All whatever I need You will supply

I believe, yes I believe, I believe
That all things are possible
Cause I believe in You
