(TrakBoss)

They say good things come to those who wait
Miss me with that one

(Verse 1)

Yeah Marc Darc, I feel this
Let me come up with the beat for it real quick
Uh huh, now watch how I kill this
This the type of sound that'll force out some real shit
Yeah, now I'ma spaz cause I want to
And vent all about the bullshit I've gone through
It's no time to give you the whole run through
But I should've listened when the homey said don't do
Lesson learned, now it's on to the next
That page got turned, now it's on to the checks
You can't grow if you ain't got wrongs to correct
And I want to grow into the one known as the best
I long for respect; I'm coming for your head
No make love, money I'ma make instead
Lucky Entertainment, it's time to break bread
And be prepared for the good times straight ahead,
yeah

(Hook)(Marcus Darc)

I'm So Impatient (So Impatient)
I'm tired of waiting (tired of waiting)
I want what's coming (what's coming)
And I want it now
I'm So Impatient (So Impatient)
I'm tired of waiting (tired of waiting)
I want what's coming (what's coming)
And I want it now

(Verse 2)

What you know about being stuck in a rut
Working dead beat jobs just to make a little buck
Watching everybody else moving' on up
And you know you way better but the door stay shut
It's like I'm in an elevator on a high rise
I'm headed to the top but it's still a long ride
A lot of frustration, a lot lose drive

But I won't stop 'til I see the other side
Can't spend my whole life spreading out mayo
And mustard, onions on the side with tomato
Nah that shit weak, nah that ain't me
I got plans that don't involve a degree
And cheese the only fast food that I want to see
And one of the hottest in the game, that's what I'ma be
Yung TrakBoss with a vision so clear
It's near, I just wish it hurry up and get here

(Hook)(Marcus Darc)
I'm So Impatient (So Impatient)
I'm tired of waiting (tired of waiting)
I want what's coming (what's coming)
And I want it now
I'm So Impatient (So Impatient)
I'm tired of waiting (tired of waiting)
I want what's coming (what's coming)
And I want it now
