Yeah, ahh, Yeah
She so sexy
Your body like a spaceship, shawty, let me ride
Your body like a spaceship, shawty, let me ride
I'ma take you to the moon as soon as I get inside

(Verse 1)

Shawty got a body that belong in magazines
The type to have you thinking how she get that in them jeans
Her look can be seductive and her walk is very mean
If I get her to my crib I'ma make her body creme
She don't ask questions cause she know just how I do
I can hear her body calling and I know she want it too
Start off in one position and end up in something new
And when she say my name she ain't thinking about you
I can't take my eye off you, baby, cause you a hottie
Got me having freaky thoughts of what to do with your body
Ooh, I want to taste it, climb up on my spaceship
Tell your boyfriend that you about to leave him dateless
I got that big bang that'll blow your back out
Something you can run to your girlfriend and brag about
Meteor man, I leave that ass sizzling
Now what you know about that sci-fi business

(Hook)

Your body like a spaceship, shawty, let me ride
I'ma take you to the moon as soon as I get inside
The mood just right, the goose on ice
Come kick it with a star, you can ride all night
Your body like a spaceship, shawty, let me drive
I'ma take you to the moon if you really want to ride
The mood just right, the goose on ice
Come kick it with a star, you can ride all night

(Verse 2)

TrakBoss leave your girl foaming at the lip

Not the one that's on her face but the one between her
hips
She told me that she bored with the dude that she with
So I told her drop the lame and come climb up on my
ship
Climb up on my ship and we can get this party started
And I'ma eat it, hit it, beat it up like Mr. Marcus
Shawty got that brain that you can only get from
college
And you better believe I be feining for that knowledge
I can't take my eye off you baby cause you a hottie
Got me having freaky thoughts of what to do with your
body
Ooh, I want to taste it, climb up on my spaceship
Tell your boyfriend that you about to leave him
dateless
I got that big bang, let me blow your mind
I go deep, so deep you can feel it in your spine
Meteor man, I leave that ass sizzling
Now what you know about that sci-fi business

(Hook)

Your body like a spaceship, shawty, let me ride
I'ma take you to the moon as soon as I get inside
The mood just right, the goose on ice
