(Verse 1)

I got to be the hardest working artist undiscovered
Nobody even seen it coming, I was undercover
Under them covers getting motivation from my lover
If she don't see the vision then I'm dipping with another
A nice guy with an asshole tendency
A simple necessity when working in this industry, yep
Fuck what they think of me, I might go down in history
As the nigga who never gave a fuck, I did it differently,
yep
I told the crew to get ready for a change
Cause once we in the game it ain't gon be the same
Every city that we in they gon know the name
And nah no empty promise, I put that on everything
Let me tell you 'bout it, I just want it all and some more
of it
Niggas hating on the swag but they're bitch adore the
shit
If you got a dream my advice to you is go for it
Get ahold of success, bet I won't let go of it, we in here

(Hook)

We in here, in here
We in here, in here (We in here)
We in here, in here (And we ain't going)
Nowhere, nowhere (Nah)
So get a good look (And get used to it)
Aye get a good look (And get used to it)
Aye get a good look and get used to it
You never seen nobody do it like we do it

(Verse 2)

Throw on my CD and see I'm one of the Gods
I went from underachieving to overcoming the odds
My name says it all but that's just one of my jobs
Your bitch be working me, dog, cause she in love with
the rod
Give that man an applause, who'da thought he'd have
a little flow
Cold enough to give your girl the chills and make her
nipple show

Mix it down then pull out that camera for the video
I don't hear you now, turn your hate up just a little more
I told the crew to get ready for a change
Cause once we in the game it ain't gon be the same
Every city that we in they gon know the name
And nah no empty promise, I put that on everything
Let me tell you 'bout it, I just want it all and some more
of it
Very passionate because I really do enjoy the shit
Lighting up that purple rain, Hennessy we pouring it
Vice grip on the game, bet I won't let go of it, we in
here

(Hook)
We in here, in here
We in here, in here (We in here)
We in here, in here (And we ain't going)
Nowhere, nowhere (Nah)
So get a good look (And get used to it)
Aye get a good look (And get used to it)
Aye get a good look and get used to it
You never seen nobody do it like we do it

I told the crew to get ready for the change
Cause once we in the game it ain't gon be the same
We in here, in here (We in here)
We in here, in here (We in here)
We in here, in here (And we ain't going)
Nowhere, nowhere
