All things are possible  
All things are possible  
Cause I believe in You

Give me strength to find my way  
As I journey through the day  
Cleanse my heart teach me to forgive  
Fill my heart each day I live  
Give me faith to just believe  
You hear my prayer and know my needs  
Lead me on till I find  
A brighter world and peace of mind

All things are possible  
Cause I believe in You

Whenever I am weak You make me strong  
I need your love to get along  
In my search for worldly gain  
Without your help it's all in vain  
But one thing I know is true  
As I search my whole life through

All things are possible  
It's possible, cause I believe in You

With God nothing's Impossible  
For I believe in You

All whatever I need You will supply

I believe, yes I believe, I believe  
That all things are possible  
Cause I believe in You
