Day is almost night
I don't want
To lose this fight
I've fooled
Around much too long
Now I've been laxed
But I don't want
To look back
I know
That I've done wrong

Give me the strength I need
To be able to succeed
And I will heed
To Your every command
And to everyone I'll show
My purpose and my goal
And in You
I'll be able to stand

Chorus:
Holy one
I never want
To let you down no more

(Repeat 2nd verse)

(Chorus)

Oh, I'll never let You
Down no more
Never (4x)
I'll never let You
Down no more

Never let You down

I'll never let You
Down no more
Never
