Radiation light comes from the wall

Put your three dimension glasses on

Let flow your mind to the vibration call

Bursting energy takes you beyond.

Robotic holligrams fill the void

magnetic metal love -

Dance with you private humanoid

Beat affer beat oscillation spheres above.

Light is on the screen

it's the three-d dance.

Now you can dance and scream

it's the three-d dance.

The beat of all the fans

it's the three-d dance.

Come and take my hand

it's the three-d dance.

Now you can dance and scream

it's the three-d dance.

Now you can dance and scream

it's the three-d dance.

Holographic models surround you

Moving in a frenzy automatic flash

Feel all your senses calling you

Sounds from all around give me eargasms.

Light is on the screen

it's the three-d dance

Now you can dance and scream

it's the three-d dance.

Now you can dance and scream

it's the three-d dance.

Now you can dance and scream

it's the three-d dance.
