

Trans-X "Living On Video"

Visit "[Living On Video](#)" on MotoLyrics.com

Give me light
give me action
at the touch of a button.
Flying through hyper-space
in a computer interface.
Stop - living on video
stop - integrated circuits.
Stop - sur un faisceau de lumieres
stop - is this reality?

Traveling in a light beam
laser rays and purple skies.
In a computer fairyland
it is a dream you bring to life.
Stop - living on video

stop - integrated circuits. . . .
Living on video - sur un faisceau de lumieres

I see your glittering blue eyes
you look at me with a smile.
It's a computer fantasy
it is waiting for you and me.
Living - living on video
living - living on video

Living - living on video
living - living on video - stop. . . .
