Feels like a fire that burns in my heart
Every single moment that we spend apart
I need you around for every day to start
I haven't left you alone

SOMETHING ABOUT YOU, starin' in your eyes
And everything I'm looking for I seem to find
All this time away is killing me inside
I need your love in my life

I wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you again

We fought in a battle, nobody won
NOW WE FACE A MOUNTAIN TO BE OVERCOME
You can't run away, the past is said and done
I need us to carry on

I wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you again

You'll try everything
You never thought WOULD WORK before
When you live, when you love, and you give them your
all
You can always give up some more

BABY nothing means anything
Unless you're here TO SHARE with me
I can breathe, I can bleed, I can die in my sleep
Cause you're always there in my dreams

I wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you again

I wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you again
