Is anyone listening to the radio(is anyone listening to the radio)

Is anyone listening to the radio(is anyone listening to the radio)

I saw red
I was angry
I was screaming at the door

I saw red
In your taillights
That's the last thing that I saw

Is anyone listening to the radio(is anyone listening to the radio)

Is anyone listening to the radio(is anyone listening to the radio)

There are skies between us
There are hills

There are times I wish
That you were here

Is anyone listening to the radio(is anyone listening to the radio)

Is anyone listening to the radio(is anyone listening to the radio)

I saw red
In your bedroom
After all your
Friends were gone

I saw red
In the darkness
When the radio was off

There are skies
Between us
There are hills

There are times
I wish that
You were here

There are songs that kill me
There are stupid things I said

Do you keep the memory by your bed?

Is anyone listening to the radio(is anyone listening to
the radio)

Is anyone listening to the radio(is anyone listening to
the radio)

Is anyone listening to the radio(is anyone listening to
the radio)

Is anyone listening to the radio(is anyone listening to
the radio)

Is anyone listening to the radio(is anyone listening to
the radio)

Is anyone listening to the radio(is anyone listening to
the radio)
