### "Start Over"

I'm leaving you, you're forgetting all those words I said.  
I can't stay if that's the price to pay to get in your head  
and see what's on your mind. Little secrets all the time,  
you're losing me for telling lies, now I'm gone. But  
you'll follow, you'll be crawling back before long. And  
I'll swallow all those words I said to start over. I have no  
reason for leaving, except that people are changing.  
Don't try to blame me for anything, because it's not my  
fault. But you'll follow, you'll be crawling back before  
long. And I'll swallow all those words I said to start over.
