Visit "[Stop Stop](#)" on MotoLyrics.com

I run on a battery and, on this battery I light my way.
Understand, that this is how it begins
So hold your breath until the bitter end.

I don't like what you, don't like what you mean.
I don't like what you, don't like what you say.

So sad, so sorry for yourself, but I've gotta go.
You can stop, stop dragging it out.
You can stop, stop dragging it out of me.
So sad, so sorry to let you know, that I've gotta go.
You can stop, stop dragging it out.
You can stop, stop dragging it out of me.

I run on a battery and, as this battery it starts to fade.
Understand, that this is how we give in, yeah this is
how we give in.

I don't like what you, don't like what you mean.
I don't like what you, don't like what you say.

So sad, so sorry for yourself, but I've gotta go.
You can stop, stop dragging it out.
You can stop, stop dragging it out of me.
So sad, so sorry to let you know, that I've gotta go.
You can stop, stop dragging it out.
You can stop, stop dragging it out of me.
