Show me your teeth
And I'll show you a smile
Give me an inch and
Babe it'll take me a mile

Show me a cause
Show me a man
Something that you barely
But don't understand

All the things you see
All the things you read
Everything I say
Just goes straight thru your head

Wouldn't it be funny if you did what I said
Wouldn't it be funny if you did it again

Down in the dirt
Back on your feet
Something that you baby just doesn't fit

All the things you see
All the things you read
Everything I say
Just goes straight thru your head

All the things you do
All the things you said
Everything I say
Just goes straight thru your head

Everything I say just goes straight thru your head
(wouldnt it be funny)
