"Walk On By"

Visit "[Walk On By](#)" on MotoLyrics.com

What shall I say to you
Aand where to begin
I just know it's not
What you wanna hear
Leave all your fears behind
And place your hand in mine
And we'll surely be
So fine, fine, fine
And we'll always walk on by
And we'll always walk on by
And we'll always walk on high

We've learned mistakes
That others always make
A siren leading sailors to believe
But ever since your safe return
Why oh why oh why oh why should I stay
I battled with myself
And with you so in vain
And still we'll always
Walk on by, by, by
And we'll always walk on by
And we'll always walk on high

I'll leave you free
Free as a man can be
Why cause an aching
Where a feeling was

Somehow wires crossed
Communication lost
You were always so down by law
And we'll always walk on by
And we'll always walk on high
And we'll always walk on by
And we'll always walk on high
And we'll always walk on by
And we'll always walk on high
