What is a womans role
Got to know a womans role

Turned out I had some time to stay
With a word you asked me anyway
But you thought that I was tryin'
To follow you about
I've got to know
I don't want to call out
It's in your soul
What is a womans role

Too bad you didn't trust me
But the change in you came fast
And I knew how it would be
You can't hold me down
That's the one thing for sure
I've got to know
What I came here for
What is a womans role

Reachin' out to tell me
Did you help
I know you're on my side, girl
I need you right away

Turned out I had some time to stay
With a word you asked me anyway
But you thought that I was tryin'
To follow you about
I've got to know
I don't wanna' call it out
It's in your soul
What is a womans role
Got somethin' to tell me
You'd kinda' like to tell me
What is a womans role
'Cause I need a woman
I need a woman
Yes I do
