

## Trapped Under Ice

### "Born To Die"

Visit "[Born To Die](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Been put to the test once again  
Time after time  
Time I can't rewind  
I can't reverse  
Look into the future all I see is dirt because  
Life's been unfair in my past  
I can't get past this feeling that  
My breath is getting short  
I don't have much to live for

My future is bleak  
And I know it just fine  
With every breath that I take  
I'm embracing my

Big kiss goodnight  
I was born to die  
Embracing my big kiss goodnight  
Dying to survive

Been put to the test once again  
I won't bitch and cry lose any sleep at night  
I'll be just fine  
With or without you in my life

Good times turn to hard times  
But baby girl don't cry  
This time is our time  
One chance to live  
We got to make it right  
One day we'll die  
Big kiss goodnight
