Lets pretend, were far away, away from problems,
found each day
Silence drifts, echoe fades, raining softly, then
delay...(awww)

-When i fall, if i make a mistake, can i make an escape
with you

Pre-Chorus: My confidence is draining out, my
happiness is raining down on me, my ego is craving
without you im falling, a step into darkness can you
hear me calling, calling for you...

Chorus: Will you break me out, (set me free), will you
take my soul, (away from me), will you break me out,
(set me free), will you take my soul, (away from me)

Am i lost, if i stray out to far, would you bring me back
in with you?

---Pre-Chorus---

---Chorus---

Bridge: Help i need it to swallow me
up(x2)(oohhhhhhhh)

Look inside(and never go away), come bring me
out(and take away the pain), and would you find it in
your heart(i beg you please), and if you wanna bring
me out, SET ME FREE!
