Sink, swim - the choices are that
I've been to the bottom and I ain't going back
Sink, swim - the choice is yours
I keep my head above water searching for something
more

Times (times are tough) but I've had enough
(I'm) I'm through with giving up
Times (times are tough) but I've had enough
While you can't stop from -

Sink, swim - I refuse to go under
Weighed down by your lies, motherfucker
I've invested too much into this thing that I love
To turn my back and walk away
You're just too fucking late

Times (times are tough) but I've had enough
(I'm) I'm through with giving up
Times (times are tough) but I've had enough
You can't stop from drowning

Drowning in your fear
You're nowhere to be found when risk is near
You've been dragged to the bottom of your mind
You're holding onto anything just trying to survive
You're holding onto anything just trying to survive

Times (times are tough) but I've had enough
(I'm) I'm through with giving up
Times (times are tough) but I've had enough
While you can't stop from -

Drowning
